

## Sierra Nevada Adaptive Management Project Public Participation Integration Team Webinar

April 2, 2014, 10am to 12pm

Webinar info: <http://uc-d.adobeconnect.com/pptit2014/> and call 860-740-1260, code 542-2571

Desired outcomes:

- To share with stakeholders the envisioned structure and content of the PPT chapter of the final report and integration draft metrics
- To seek input on stakeholder expectations of the PPT chapter and how that structure and content can help guide the chapters of the other science teams
- To seek stakeholder feedback specifically on PPT ‘management recommendations’/ ‘lessons learned’
- To seek input and facilitate discussion of PPT integration metrics for the SNAMP final integration report

*"The purpose of the SNAMP Integration Team is to engage the public, the University of California, and natural resource agencies in a process of mutual learning as we proceed through the adaptive management cycle. Part of the work is to learn about UC research and data, as well as USFS treatments, so that the IT can evaluate and understand the tradeoffs as research information is integrated within the adaptive management project and into Forest Service management. Ultimately, the goal is to address the part of the adaptive management cycle where scientific information and public input is integrated into future management decisions."*
