

The Sierra Nevada Adaptive Management Project Water Research Team Fieldtrips

Southern Site: Aug 25th 9am – 2:30pm, Batterson Station, 43060 Hwy 41
Northern Site: Sept 1st 9am – 2:30pm, Foresthill Ranger Station, 22830 Foresthill Rd.

Agenda

Our goal is to share the details of and receive input on the University of California SNAMP water research team’s work plan, equipment set up and monitoring. Dr Martha Conklin from UC Merced and members of her staff will be leading the fieldtrips. There will be some walking in rough terrain.

The link to the team’s work plan is: http://snamp.cnr.berkeley.edu/static/documents/wp-uploads/SNAMP-WaterStudyPlanProtocol_20080515.pdf

The data address for one of the met stations is: <http://cdec.water.ca.gov/cgi-progs/queryF?s=BSN>

RSVP: South amlombardo@ucdavis.edu, North: kcingram@ucdavis.edu
